

# LAMB REAR BRAKE ORDER SPECIFICATIONS

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Phone #: \_\_\_\_\_ Fax #: \_\_\_\_\_

1. Axle Offset Dimensions: Left Side = \_\_\_\_\_  
(Measure accurately) Right Side = \_\_\_\_\_

2. Wheel bolt circle:  4.5"  4.75"  5.0"

3. Stud diameter:  11/16"

4. Type of housing end: \_\_\_\_\_  
(See diagrams)

5. Axle manufacturer & Serial #: \_\_\_\_\_

6. Diameter of axle under bearing: \_\_\_\_\_

7. Housing ends are seldom installed straight. The brakes will not align, release, or wear properly as a result. A spongy or no pedal will also result. We do not trouble shoot brakes that do not have our pedal assembly and master, or master and pedals that aren't built to the specs that are required for our brakes.
